## **AL HACA "mind games / day break" feat. RQM & RAS T-WEED / feat. RQM & RIDER SHAFIQUE**

**" Day Break. If Herbert would ever think of producing a grime track, maybe this is what it would sound like?"**

This is the first official **AL HACA** release since last years groundbreaking collaboration with Viennas **STEREOTYP** (released on **Klein Records**). In contrast to the previous record, which was pure dancefloor madness, the new material drops the BPM count and goes for the smoked out headphone aesthetic. The sound is impenetrably deep, bass heavy and dubbed the fuck out.

**Mind games** features **Ras T-Weed**, formerly of **Rockers Hi-Fi**, and **RQM**, known for his work on **THE TAPE** trading verses on the ills of streetlife and media propaganda. Their efforts match the best of the mainstream lyricists with their melodies and accessibility, but are set to a future tech beat that is light years ahead of everything thats out there currently.

**Day break** on the B-side features RQM alongside **Pressure Drops** emcee **Ryder Shafique** rapping about the ups and downs of relationships in a spoken word style. The song is an introverted masterpiece set to the most subliminal contorted bassline. If **Herbert** would ever think of producing a grime track, maybe this is what it would sound like?

This 7" is Al Haca showing what they do best - defy genres in a way that make any audiophiles ear thirst for more.

### **LABELINFO**

**META POLYP** is a berlin label run by **Shir Khan** alongside his peeps from **Tolcha**. The sound of **META POLYP** can be best described as a postmodern soundclash of warm dub, dirty electro, grimey hip hop, future dancehall and neo disco. **META POLYP** is presenting the different corners of future-minded music. However, it is not about the genre, but the vibe and the fact that it makes the neck move - and its gotta be bass heavy!

### **ARTISTINFO**

Al Haca is an international crew based in germany that makes future minded digital soul. Their sound is deep, bass heavy and dubbed the fuck out. On the spectrum of music they oscilate between mathew herbert s microscopic beat surgery and the raw energy of grime. Their new material features vocalists such as rqm of the tape, ras t-weed of ex rocker s hi fi, and ryder shafique of pressure drop soundsystem and is probably the boldest example of hip hop revision. to date they ve performed with artists such as The Bug, M.I.A., Lady Warrior, Sunship, Modeselektor, Alec Empire and many more..check it - it s nothing you ever heard!!!
